## Case Story – 1

**Name of Beneficiary:** Mohan Roy

**Commented [ms1]:** Name of the Beneficiary

**Age:** 4 years

**Commented [ms2]:** Age of the beneficiary

**High Quality** Picture/Video of Beneficiary [Close up shot of the beneficiary is essential]

Born on 14 June 2014, Mohan Roy's three member family resides in Harindanga

**Father:** Kapil Roy is an ATM Guard with earnings of about Rs 12000/- per month,

**Mother:** Sushmita Roy who has done her BA

### Background

**Commented [ms3]:** - Background of the recipient  
- Family status  
- Medical / Educational or other relevant History

Mohan was placed in an incubator when he was 2 days old because of his pre-mature birth. He was diagnosed with heart problems when he was 7 days old. An Echo-cardiograph at Joka ESI Hospital revealed Mohan had to undergo surgery for his heart problem.

At 10-11 months, Mohan's parents observed that he was not responding to any sound and was unable to speak. They suspected a problem and took him again to ESI Hospital. The ENT Department checked Mohan and referred him for BERA [Brain-stem Evoked Response Audiometry]. By the time they got the BERA Test done from Hazra Pulse Diagnostic Centre, Mohan was one year old and he was confirmed of a Hearing Problem. Referred by the Diagnostic Centre to NIHH, Mohan was again made to go through the testing process and the reports there reconfirmed his hearing loss as profound. His intervention and early childhood education began at NIHH.

### Onboarding at Vaani:

**Commented [ms4]:** How the Beneficiary is connected to the NGO

It was in April' 2017 that they got to know about the VAANI Sadhan Centre from the parent of Abu Raihan. Mohan and his parents began attending the sessions regularly at the VAANI Sadhan Centre. The parents realized that Mohan who use to not leave his father's lap initially, began to show interest in sitting with the teacher during the sessions and was communicating effectively.

### Impact:

Mohan who did not know any word to communicate in, began to pick up signs and started communicating well.

His father was happy to be part of the sessions and learnt how to follow up at home. He shares, "The progress of our son has been remarkable after attending sessions at the Centre. The Parents Meetings and workshops have helped me learn a lot about what I need to do as a parent. I am thankful to VAANI for making parents understand the importance and the need to follow up with our deaf children . This has helped in knowing how to support my child at home ".

Mohan's Father Tarun, is proactive and has referred more deaf children and their families to the VAANI Sadhan Centre.

**Commented [ms5]:** How the life of the beneficiary has been impacted because of the NGO

### Testimonial/Excerpts from Stakeholders regarding the progress

Mohan's Teacher Aloy Jhulki says , "Mohan's progress has been because of attending sessions at the Centre and the parents involvement in learning and following up with all the support required regularly at home "

**Commented [ms6]:** Quotes from the stake holders like parents, care takers, NGO staff or even the beneficiary will be effective.

### Objective of Fundraising:

In order to continue providing support for Mohan for improving his communication, Quantitative and reading skills, we are in need of funding

### Estimated Cost Breakup for providing support to the beneficiary:

Please mention the expected timeline during which the funds will be utilized.

**Commented [ms7]:** [OPTIONAL]  
Please add the estimated cost and the timeline in which the funds will be utilized. It adds authenticity to the stories listed on Weppl
